ABOUT EVAN'S DESTINATION DAY CAMP

ESTABLISHED 2017

This private family charitable program is in memoriam of Evan John Carom who worked for 11 years with children and young adults diagnosed with Autism. He always wanted to help others and his work continues through this 5K Run/Walk.

Highlands Hospital Regional Center for Autism was developed in collaboration with the Cleveland Clinic Autism Development Solutions (CCADS). The program was modeled after the Lerner School at Cleveland Clinic and was established to offer state-of-the-art educational and behavioral treatment to individuals with autism in Southwestern Pennsylvania.
